## JAPAN QUALITY

Iwata Machinery Works Ltd. is one of the best precision parts manufacturing companies in Japan with its advanced equipment and technological innovation. We accept various orders, both quantity production and experimental production. We excel in complex processing using multistage production. We have been commissioned to produce aerospace parts because of our reputation for technological innovation. We recently have been processing titanium, magnesium, and CFRP (Carbon Fiber Reinforced Plastic) for our products.

President  
Katsumi Iwata
